First payment was made for 162 industrial deaths in 1988. Eleven of the 162 cases were pensioners who died from causes related to their compensable injuries or diseases. The 162 fatalities first paid in 1988 cannot be compared to the 212 fatalities reported in 1988 because some of the fatalities first paid in 1988 occurred and were reported in a prior year. The table on page 5 gives a breakdown of the 212 reported fatalities.

---

[1] Fatalities that occurred in the year and were reported to the Board by 20 February of the following year.

During the year, 147,518 claims were paid for the first time. Of those:

72,703 were for medical aid only;
71,381 were for temporary total disability;
3,272 were for permanent disability;
162 were for fatal accidents.

The Board set aside $6,675,892 in pension reserves to pay for hearing loss claims allowed in the year.

COSTS

Compensation costs totalled $399,624,588 in 1988 compared with $312,612,609 in 1987. The figures include actual payments made for medical aid and wage loss, as well as a reserve set aside for present and future payments of permanent disability and dependants' pensions awarded in 1988. The expense figures shown in Schedule 1 of the Finance and Statistics section show pension payments made during the year, not reserves set aside.

[3] Due to rounding, totals may not balance.

[4] The total cost of $399,624,588 differs from the total claims expense figure in Schedule 1: the former includes pension reserves set aside, the latter includes pension payments made. The claims costs of $399,624,588 are shown by subclass in Table A-2 of this report.

NOTE

There were 5 deaths that occurred in 1987 but were not included in last year's table - they were reported to the Board after 1 March 1988.

---

1 Disallowed claims are those that fall within the scope of the Act but are not acceptable, usually because they are not work related.

2 Claims awaiting application typically involve cases where the deceased's relatives elect to sue a third party rather than to claim compensation.

DAYS LOST FROM WORK

There were 2,342,015 days lost from work during 1988 due to injuries; 59.5% of this figure resulted from 1988 injuries, 23.9% from 1987 injuries and 16.6% from 1986 and prior years injuries. These figures represent the actual number of days lost by injured workers (wage-loss cases). Time charges for permanent disability and fatal cases are not included.

An analysis of days lost by industrial group shows:

[1] The method of calculating average weekly wages was modified in 1987. The change is relatively small, but the 1987 and 1988 average weekly wages should not be compared to the average weekly wages from earlier annual reports. Average weekly wages for prior years on the new basis are available on request from Statistical Services.

[2] This category is "overexertion" and "bodily motion" accidents that usually result in strain injuries.

1 A claim can be reopened in the same year it is first paid; a claim can be reopened more than once in the same year.

2 These figures are work days compensated in 1988 on all claims, not just claims reopened or first paid in 1988.

3 Claims reopened with one day or no days of wage loss (such reopenings are typically for the purpose of adjusting the compensation that has been paid) are not counted as reopenings in this table.
